Friday 8th May 2015

Dear Mr Siano,

The Institute of Maritime Law of the University of Southampton will be running its 42nd Maritime Law Short Course for three weeks starting from August 17th 2015. As part of the course I would like to invite you to present, as part of our course, a seminar on "Collision liabilities- a practical approach" on Thursday 27th August 2015 focusing, in particular on the difficulties and the approaches undertaken in such circumstances in the South American context.

It would be an honour for us if you could kindly accept this invitation.

Kind Regards

Professor M. Tsimplis

Director of the Institute of Maritime Law

Professor of Oceanography and Maritime Law
